

I urge you to not implement any proposal that would lessen Indiana's Telephone Privacy law protections. Since implementation of Indiana's law, our quality of life has been much improved. Our dinner hour is no longer disturbed with numerous unwanted calls. We used to receive from 10 to 20 calls each week, many at dinner time. Now, we rarely ever receive an unwanted, nuisance calls. Please don't take this from us. Thank you for your consideration. Russell Conrad, Jr.
